

Android TECH

Native Android, Kotlin, Retrofit, Firebase, Crashlytics, LeakCanary, Espresso, REST, Android Studio, GSON

Other TECH

JavaScript, React Native, ReactJS, NodeJS, AEM Forms, Angular, Bamboo, REST, VScode, Xcode, Git, CSS, HTML, JQuery, Fetch, Axios

Badges & Certifications

- React Native Certification | Apr 2021
Issuer: IBM
- IBM Cloud Essentials | Mar 2021
Issuer: Coursera
- AEM Back-End Dev | Jan 2021 |
Issuer: Adobe Professional
- AEM Front-End Dev | Sept 2020 |
Issuer: Adobe Professional
- Advancing Accessibility | July 2020 |
Issuer: IBM

Education

Certificate | Jan - Mar 2018
Brainstation | Full Stack Web Dev

B.A. (Hons) | 2011-2015
University of Guelph | English Major

DANIELLE SUBJECT

DEVELOPER - DIGITAL STRATEGY & IX

EXPERIENCE

SOFTWARE DEVELOPER, IBM

(May 2019 - Current)

- Native Android development in Kotlin
- Implemented RESTful api data consumption using Retrofit
- Dev Ops: Implemented a Bamboo pipeline to ensure easy deployment for the client
- Led a full accessibility audit of Storybook UI components
- Integrated analytics tagging to track user interactions on a Storybook application using Angular
- Write unit tests to achieve client's desired coverage
- Led the integration for a remote cheque deposit SDK feature on multiple projects
- Work closely with QA testers to enforce accessibility standards
- Provide testing and defect support to clients
- Created an Android framework written in kotlin to meet client's needs for a reusable library
- Solely built a POC application in Android from the ground up
- Utilized Adobe Experience Manager Forms and Adobe Designer to build interactive forms for the client
- Tested crash rate of an SDK with custom logs using Firebase and Crashlytics

FULL STACK DEVELOPER, KNOCKRI

(Jan 2019 – May 2019)

- A video assessment tool used to reduce unconscious bias during the hiring process.
- Implemented new features using WebRTC API
- Led accessibility audit and implemented accessible features to meet legal criteria
- JavaScript, NodeJS, ReactJS, SQL, ExpressJS

FULL STACK. MOBILE DEVELOPER, BORO

(Jun 2018 – Nov 2018)

- Developed and implemented new features
- Collaborated in an agile environment
- React Native, NodeJS, SQL, ExpressJS

WEB DEVELOPMENT TEACHING ASSISTANT, BRAINSTATION

(Apr 2018 – Jun 2018)

- Responsible for educating a MERN Stack curriculum, as well as PostgreSQL, Git, and deployment flow
- Led code-along demonstrations for students
- Provided one-on-one mentoring to students
